

Pack 2 — CVC Word Building

5 sheets, one per short vowel. Circle the missing vowel from 3 choices, write the word, then unscramble 5 more. For example: c[_]b with a, e, o to choose from — circle a, then write "cab".

Name: _____

Date: _____

How to use this worksheet

- 1 Read the word with a blank where the vowel should be.
- 2 Circle the correct vowel from the 3 choices shown.
- 3 Write the complete word on the line below.
- 4 In the second section, unscramble the 3 letter tiles and write the real word.

Tip

Use after all 26 letters are known and your child is beginning to blend — the missing-vowel format forces vowel discrimination, the hardest part of CVC decoding.
