

Pack 1 — Letter Sounds (a-z)

26 single-sheet pages, one per letter. Trace the letter, then circle every word that starts with its sound — for letter B, that means circling "bat" and "bed" but not "cat" or "fox".

Name: _____

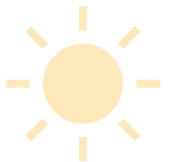

Date: _____

How to use this worksheet

- 1 Say the letter's sound out loud (not its name) using the keyword shown.
- 2 Trace the big light-gray letter, then write it twice more on the practice lines.
- 3 Read each of the 6 words in the list.
- 4 Circle only the words that start with today's letter sound.

Tip

One letter per week, after that letter has been introduced in phonics — see the [free-phonics-worksheets-printable guide](#) for the full routine.
