Name: _____

Date: _____

How to use this worksheet

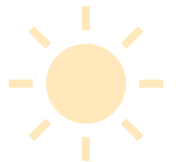

- 1 Read the short word out loud.
- 2 Add a silent E to the end — the vowel changes from short to long.
- 3 Write the new long-vowel word on the blank line.
- 4 Check your spelling against the word bank at the top of the page.

Example — this is what a correct answer looks like:

hop + e -> hope

Tip

Practice one vowel group at a time — mixing them too early causes more mix-ups than it fixes.
